THE PERSON BEHIND THE FRAME

I am passionate about acting, direction, filmmaking and visual storytelling. For me, performance is more than delivering dialogue — it is about becoming a character, understanding the emotion behind a scene and making the audience feel something.

I love taking a story from an idea to the final frame — performing, directing, shaping the visual language and creating content that stays with the audience. I am constantly looking for new characters, new stories and new opportunities to grow as a performer and filmmaker.
